**DETAILED ACTION**

Acknowledgment is made of the receipt of the amendment and response filed on 10/03/03. Claims 1-33 are currently pending.

***Response to Amendment***

1. The declarations filed on 10/03/03 under 37 CFR 1.131 is sufficient to overcome the Canini et al. reference.

***Allowable Subject Matter***

2. Claims 1-33 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach, or fairly suggest either alone or in combination thereof, an optoelectronic device for acquiring machine-readable symbols, comprising: a scanning control circuit coupled to a two-dimension sensor to selectively receive electrical signals from successive sets of pixels along rows in a scanning direction in at least a first and a second successive pass along the rows, where the sets of pixels extend across at least one row in a direction perpendicular to the scanning direction, and each set of pixels has a first height in the direction perpendicular to the scanning direction during the first pass and a second height in the direction perpendicular to the scanning direction during the second successive pass, the second height different from the first height.

Furthermore, the applicant's representative has provided affidavits as evidence that conception to the invention was established in France prior to November 2, 1999, the U.S. filing date of U.S. Patent No. 6,512,218, and diligence was established from that time through constructive reduction to practice by the filing of French patent application 99.164421 on December 23, 1999, from which the instant application claims priority.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
